## **DETAILED ACTION**

### ***Specification***

1. The objection to the specification is hereby withdrawn.

### ***Claim Rejections - 35 USC § 112***

2. The rejection to the claims under 35 USC 112 is hereby withdrawn.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 15 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Kozyrski (5,845,554). Kozyrski discloses tool holder 62; support block 58, 44, 56; rotational axis Y; positioning mechanism 24, 26; linear axis is collinear with element 26; flash line is collinear to edge 20; compliance device 16, 42; housing 42.

### ***Allowable Subject Matter***

5. Claims 1-14 and 16-18 are allowed. Kozyrski teaches a tool holder that is rotatable relative to the support block, but does not teach a first and second biasing means biasing elements to a centered position. Mori (5,931,071) teaches a tool holder that is rotationally biased to a centered position, but does not teach a support block movable relative to the housing along a linear axis. Holmstrom (4,312,255) teaches a biasing assembly rotationally biasing the tool holder to a centered position, but does not teach a second biasing assembly centering the tool

holder along a linear axis. It would not have been obvious to combine the references with other prior art teaching in order to meet the claim limitations.

***Response to Arguments***

6. Applicant's arguments with respect to claims 15 and 19 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
